Thank You, from the Askew Family

Thank you so much for the ministry of food that the church has embraced with such passion. We appreciate so much the time and organization that went into planning meals brought to our house after Evelyn was born. It was one less stress we had to worry about as we were adjusting to a family of four. The community dinners have been a blessing to many, and we are so thankful for the people who prepared it and brought it to our house to enjoy. We are so lucky to be part of such a loving church family!

Celebration & Kick-off Luncheon for Cornerstone Campaign

Sunday, October 27th @ 12:30 - MCC Fellowship Hall

A few months ago, the Finance Committee gave the congregation a spiritual challenge: Raise \$35,000 in 12 Weeks! We are working our way to that goal, but we know that regardless of where we come in on our goal, the Spirit of God is here among the people of God at Midway Christian Church. So we are inviting everyone to Come join us on Sunday, October 27th, as we celebrate the wonderful things that God is doing here at Midway Christian Church with a lunch complete with the Thanksgiving Market Menu of chicken salad and oyster stew to remind us of the many ways God has walked with us in the past and continues to guide our future!

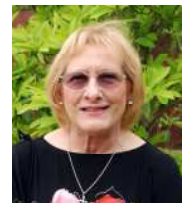

Donations will be accepted at this lunch and all proceeds will go to our Cornerstone Campaign Fund.

Green Chalice News

MCC is a Certified Green Chalice Congregation - since January, 2012

Green Chalice: Mexico

Carol Devine, Green Chalice Minister, discovered these facts while researching for her upcoming trip to Central Mexico:

1. Mexico is the world's 5th most biodiverse country.
2. Over 15% of species eaten as food have their origins in Mexico, and tomatoes, corn, avocados, vanilla, sweet potatoes, cocoa and peanuts were first domesticated there.
3. 13 million cubic meters of logs are sold illegally every year.
4. Over 2 million small farmers have been displaced due to NAFTA. They can not compete with U.S. subsidized goods.
5. Half of all agricultural products in Mexico are imported, diminishing Mexico's self-sustenance capacity, increasing air pollution, and deteriorating the environment.
6. Water Issues: The U.S. and Mexico signed the water distribution treaty in 1944, which established the International Boundary and Water Commission. Due to drought, Mexico is 38% behind in its water obligation. Everyday about 408 billion gallons of water are withdrawn in the U.S., primarily for thermo-electric power generation and irrigation. The populations continue to rise but the water availability does not.
